# BDNA Technopedia IT and Technopedia MD Content Packs

Content Pack	Description	Technopedia IT	Technopedia MD
InfoSec	Easily translate between Technopedia and the Common Platform Enumeration (CPE/CVE) standard for feeding your IT GRC and security tools	✓	
DejaCode Open Source	Avoid compliance issues by gaining clarity about your OSS deployments and exposure to the wide variety of license types	✓	
Hardware Specifications	Improve migration decisions with power, space and other relevant hardware data	✓	✓
Pricing	Provide valuable information to your existing software and hardware information	✓	✓
IBM PVU Licensing	Get visibility into your IBM license position to avoid costly compliance issues	✓	
Lifecycle and Support	Eliminate risk and plan effectively for software end-of-life and vendor support changes	✓	✓
Procurement	Gain clarity on licensing terms and metrics for hardware and software purchases	✓	✓
Virtualization Compatability	Eliminate surprises and ensure the success of your VMware and Citrix migration, virtualization, and consolidation projects	✓	
Windows 7 Compatibility	Accelerate your Windows 7 migration efforts with comprehensive information about compatibility and required upgrades	✓	
Windows 8 Compatibility	Accelerate your Windows 8 migration efforts with comprehensive information about compatibility and required upgrades	✓	
Windows 10 Compatibility	Accelerate your Windows 10 migration efforts with comprehensive information about compatibility and required upgrades	✓	
Windows 2003-2012 Server Compatability	Ensure your 2003-2012 server migration projects run smoothly	✓	
Global Medical Device Nomenclature (GMDN)	Ensure a common taxonomy is established for medical devices with internationally agreed-upon descriptors used to identify medical devices		✓
Universal Medical Device Nomenclature System (UMDNS)	Ensure usage of an established standard international nomenclature and computer coding system that identifies, processes, retrieves, transfers and communicates data about medical devices		✓
Unique Device Identification Database (UDI)	Gain visibility with the ability to identify medical devices through their distribution and use		✓
Federal Drug Administration (FDA)	Ensure safety and compliance by tracking all manufacturer recalls		✓
Manufacturer Disclosure Statement for Medical Device Security (MDS <sup>2</sup> )	Ensure that patient data is secured with identification of devices containing electronic protected health information (ePHI) data		✓
